

ASX Announcement

ASX : NWE

31 March 2016

APPOINTMENT OF DIRECTOR

Norwest Energy NL (ASX : NWE) is pleased to announce the appointment of Mr Ronald (Ron) Currie to the Board as a Non-Executive Director of the Company, effective immediately.

Mr Currie has extensive operational experience in oil and gas operations through his long association with Bonnie Rock Transport, a company he co-founded in 1998 and which provides transport and logistics solutions for the Oil and Gas industry. Bonnie Rock Transport specialises in the mobilisation of large drilling rigs and associated equipment across Australia, as well as providing general haulage services.

A separate Initial Director's Notice has been lodged for Mr Currie, declaring his indirect non-controlling interest in 90,000,000 ordinary shares in Norwest Energy NL, held by the Currie family controlled Kemprust Pty Ltd.

Mr Michael Fry, Chairman of Norwest commented, "We welcome Ron to the Board of Norwest. Ron's hands-on operating experience, including providing drilling services to exploration activity within the Perth Basin where Norwest is primarily focussed, will bring a new perspective to the Board as the Company looks to progress its suite of projects during these difficult market conditions."

Yours sincerely

John Annand
Company Secretary
